Magnesium Chloride In Food CAS 7791-18-6

Molecular formula: MgCl2·6(H2O)

CAS: 7791-18-6

Appearance: colorless transparent acicular crystal

Properties: Colorless transparent crystals, show columnar or needle-like, has a bitter taste. Soluble in water and alcohol.

Use: Analytics reagents, Pharmaceutical raw material, Food addtive, Food preservatives

Magnesium Chloride		
	**Items**	**Standard %**
	Content(MgCl2)	46.0 Min
	Calcium (Ca2+)	0.15 max
	Sulfate(SO42-)	1.0 Max
	Alkali chloride(Cl-)	0.5Max
	Chromaticity	50 Max

Application:

1.Additive for marine aquariums,aquaculture,shrimp pond,etc.

2.Used as a deicer and prevents the formation of ice on surfaces.

3.Used in the manufacture of textiles, fireproofing agents, cements and refrigeration brine.

4.Used for dust control.
